PHILIPS

Cordless phone answer machine
25 min answering machine 1.8" display/ amber backlight, Speakerphone

D4051W/22

Highlights

4.6cm (1.8") graphical display
Large, 4.6cm (1.8") full graphical display

Contoured handset design

Designed for maximum in call comfort the handset fits naturally against the curve of your face.

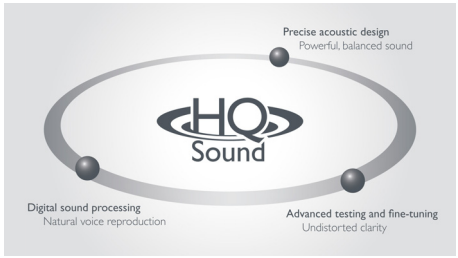
Eco-conscious model with ECO+

Philips phones are energy efficient and designed to be respectful to the environment. When ECO mode is activated the emitted radiation is reduced by up to 60%, and up to 95% when the phone is charging. Whith ECO+ mode activation the radiation drops to zero.

Handset speakerphone

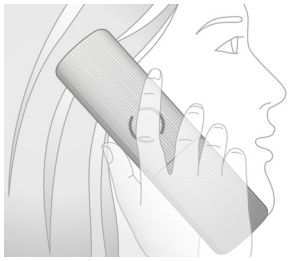
Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

HQ-Sound



Philips cordless phones with HQ-Sound: build upon decades of experience and breakthrough innovations in developing Hi-Fi audio products and high-end headphones to deliver excellent voice clarity on our DECT phones. When it comes to improving sound quality, our acoustics engineers and architects have thought of everything – high quality components, digital signal processing, precise acoustic design, advanced testing and fine-tuning. The result is sound that is crisp, clear and authentic. Sound so good and natural, it is almost like being there in person.

Non-slip grip



The rear of the handset is treated with a special texture for added comfort and better grip.

Silence mode

Value your privacy and quiet at home? Easily disable the ringtones for specific "no call" times to enjoy piece and silence.

Up to 16 hours talk time

Up to 16 hours of talk time on a single charge

Up to 25 min. recording

Up to 25 minutes message on your answering machine

Caller ID*

Sometimes it is good to know who is calling before you answer. And our Caller ID lets you keep track of who is on the other end of the line.

Keypad backlight

The soft amber backlight makes keys easy to read in low light conditions and at night.
