Extra touches for your convenience
- Car adaptor included
- Up to 2-hour playback with rechargeable built-in battery*
- Full Resume on Power Loss

PHILIPS

Portable DVD Player
17.8 cm (7") LCD

PD704/37

Highlights

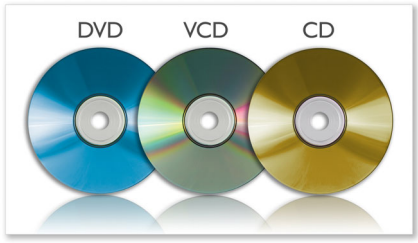
MP3-CD, CD and CD-RW playback

MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without radically degrading their audio quality. A singe CD can store up to 10 hours of music.

View JPEG from picture disc

Play JPEG photos that are saved on your disc. Relive your favorite moments with family and friends anytime you want!

DVD, DVD+/-RW, (S)VCD, CD



The Philips Portable DVD player is compatible with most DVD and CD discs available in the market. DVD, DVD+/-R, DVD+/-RW, (S)VCD, and CD – all of them can play on the DVD player. DVD+/-R is a shorthand term for a DVD drive that can accept both of the common recordable DVD formats. Likewise, DVD+/-RW handles both common rewritable disc types.

Power Resume

The DVD-Video player remembers where you stop watching last time when it is powered off directly or when the power supply discontinued. If you did not switch to play another disc, your player will resume play where you have stopped the movie last time just by reloading the disc. Making your life a lot easier!

18 cm/7" TFT color LCD display

The high resolution color LCD display brings images to life, showing off your treasured photos, favorite movies and music with the same 'real life' rich detail and vibrant colors as high quality prints.

Games CD

This player comes pre-packed with a bonus games CD for extra fun. Just put a game CD in the disk drive and start having added enjoyment on the go.

Spill resistant design

The device is built to resist accidental spillages. The spill-proof design with its rubber surface prevents liquids from damaging electrical or mechanical components, and it is easy to clean.
