Highlights

Small, colorful and stylish

Flaunt your GoGEAR Sounddot and simply bring out the best in your music. The MP3 player is small, round and chic – much as its name implies. It is equipped with a built-in clip and comes in a range of exciting colors. It can be worn on your bag or clothes, like a fashion accessory, all ready to be called upon when needed.

Built-in clip

Nothing should get in the way of you. Thanks to the lightweight design and sturdy built-in clip, your GoGEAR Sounddot is cleverly designed to be clipped onto your attire securely and stylishly, making it your perfect companion on-the-go.

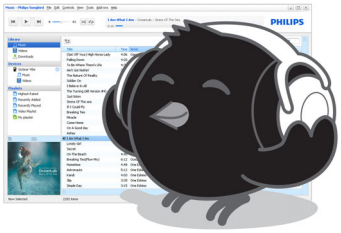
Sound and LED indicators

GoGEAR Sounddot lets you know exactly what is going on, with specially programmed light and sound indicators. An LED and short beeps tell you if your player is on or off, and if it is on shuffle mode or not. They even warn you when you are running low on power, with the light blinking in red and beeps sounding to the same set rhythm. Connect your player to a power supply and the LED will glow a steady red to let you know that your battery is being charged. It then turns green to tell you that the battery is full – and that you can enjoy great music on your GoGEAR Sounddot once again.

Up to 6-hour music playback

Jive to endless hits with your GoGEAR player. A compact rechargeable battery is built in for long-lasting power. Up to 6 hours of continuous music playback can be enjoyed with a single charge. Just connect the player via Direct USB to your computer to charge, without the need for any cables. It's really that simple.

Philips Songbird



One simple, easy-to-use program that comes with your GoGear player, Philips Songbird lets you discover and play all your media, and sync it seamlessly with your Philips GoGear. Its intuitive and powerful music management features let you discover new artists and music styles directly in the program through music and media stores, services and websites. Play your own library and media from the internet and seamlessly sync all of it from your PC to your Philips GoGear.

Fast charging (60 mins)

Sometimes, you just need your GoGEAR player to take you from home to office and back again or for a short run – but you forgot to charge it last night. Say goodbye to frustration and boring, silent journeys with Fast Charge. Philips' smart and convenient solution lets you plug your GoGEAR to your PC or USB charger for just 6 minutes and in return, you get a whopping 60 minutes of audio playback! Fast Charge works by relying on much higher current levels to give your lithium-ion battery the power it needs to tide you over in a jiffy … and keep the music going.
