Smart features
- Grease drainage
- Ribbed-and-smooth top allows stir-frying, grilling and more

Only a little effort
- Non-stick grilling surface
- Easy to store upright
- Spatula

PHILIPS

Table grill
2300 W Ribbed/Smooth plate, High temperature grill plate, 300 x 370 mm

HD4419/21

Highlights

Non-stick grilling surface
Non-stick surface prevents food particles from sticking.

High power
The high power of the appliance enables the grill plate to heat up quickly, reaching operating temperature very fast and saving you precious time. It also means that the grill surface keeps its heat when food is placed onto it because the high power ensures a fast recovery to the correct temperature.

Upright storage

Easy to store upright; tidy storage of cord and tray.

Adjustable thermostat

Adjustable thermostat ensures the perfect result.

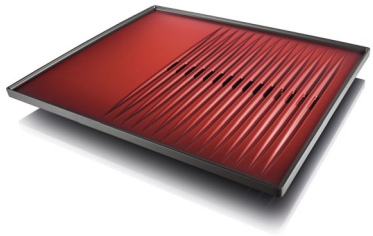

Spatula

Spatula for flipping, stirring and removing food.

Grease drainage

Excess grease is drained to removable tray.

High temperature grill plate
The high temperature of the Philips electric grill plate seals in all the juices and flavour of the food. That's because the moment the food comes into contact with the surface of the grill, it begins to sizzle and brown, forming a tasty crust that keeps all the goodness and flavour inside, where it belongs.

Ribbed-and-smooth grill plate

The versatile grill plate gives you the choice of cooking with either a ribbed or smooth grilling surface, so you can enjoy your food the way you like. The smooth area is suitable for stir-frying and grilling small pieces of food. The ribbed surface creates that irresistible flame-grilled effect.

Specifications

General specifications
