- Motorized CD loader for convenience access
- FM digital tuning to preset up to 20 stations

Enjoy your favorite movies and music
- Stream music wirelessly via Bluetooth™ from your smartphone
- Play DVD, DivX®, (S)VCD, MP3-CD, CD(RW) and Picture CD
- Dolby Digital for ultimate movie experience
- USB Direct for easy MP3 music playback
- Audio-in for portable music playback
- Karaoke for endless singing entertainment

PHILIPS

Highlights

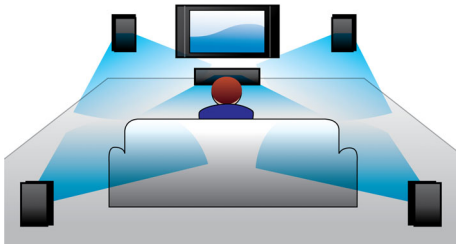
Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimize the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by resonating the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a whole new dimension of deep bass.

Digital Sound Control

Digital Sound Control offers you a choice of pre-set balanced, clear, powerful, warm and bright controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

Dolby Digital



Because Dolby Digital, the world's leading digital multi-channel audio standards, make use of the way the human ear naturally processes sound, you experience superb quality surround sound audio with realistic spatial cues.

USB Direct for easy MP3 music

Thanks to the complete file transferability, you can easily enjoy the convenience and fun of accessing more digital music via the built-in USB Direct.

Karaoke

The Karaoke feature on your Philips audio system provides endless entertainment and fun opportunities for you to release your musical talent! You can enhance your performance by adding a cool 'echo' effect. Enjoy the fun of Karaoke solo or simply share a good time with friends and family.

Stream music via Bluetooth™

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even loptops. So you can enjoy your favorite music, sound from video or game wireless on this speaker easily.

Specifications

Sound
- Sound Enhancement: Digital Sound Control
- Sound System: Dolby Digital
- Maximum output power (RMS): 20W

Loudspeakers
- Speaker drivers: 3" woofer
