- Volume diffuser enhances volume, bouncy and curly styles

Easy to use
- 1.8m power cord

Less hair damage
- ThermoProtect, protects your hair against overheating

PHILIPS

Highlights

1.8m cord

Convenient to use thanks to the 1.8m power cord length.

7mm narrow concentrator

The 7mm opening of the concentrator focuses the flow of hair for precision styling on specific areas. The ideal attachment for brushing while drying and styling.

Accurate control

Easily set and control the heat and speed settings to create the perfect style. Choose from 3 heat and 2 speed settings for full control and precise drying and styling.

Cold shot of air

A must-have professional function, the Cold Shot button provides an intense burst of cold air. It is used after styling to set the style.

Fast drying experience

DryCare Pro, reaches up to 95 km/h of air speed, delivering a fast and efficient drying experience.

Frizz free and shine

Ionic conditioning enables anti-static drying. Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is smooth and frizz-free hair that shines beautifully.

Pro Motor 2200W

Philips DryCare Pro 2200W has a high performance AC motor developed for the professional market. It generates up to 95km/h of air speed for fast and effective results.

ThermoProtect anti overheating

The ThermoProtect temperature setting provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results in a caring way.
