This gives you exactly the right weight, so the keyboard is firm and doesn't slip, just when your game requires maximum concentration and precision. Made in a unique thunderstorm design with lightning bolts through the keyboard and keys. You can even easily change the colour of the light at the touch of a button. Add the nylon-braided cable and cool USB connector and you have the complete gaming experience! Shortcut keys for volume, media playback etc. at the top of the keyboard.

Invision Community says:

"Besides the weight the Thunderstorm feels durable, the keys react nicely to typing fast though not as "weak" as some other keyboards."
