Philips
Bridge

929001180606

Limitless possibilities

Start with the Philips Hue bridge and create your very own Philips Hue system, exactly the way you like it.

Benefits

The heart of your Philips Hue system
- Set your imagination free and build your Philips Hue system

Add up to 50 Philips Hue lights
- Hue-ify your home with any combination of Philips Hue lights

Extend with Philips Hue accessories
- Control your lights the way you want

Easy, reliable and future-proof system
- Connect up to 50 Philips Hue lights
- Discover the Apple HomeKit features for Philips Hue

Features

Create your Philips Hue system

The Philips Hue bridge is all you need to set up your personal Philips Hue system. This is actually the brain of the operation that enables you to control all of your Philips Hue products via the Philips Hue app. Once you have installed the Philips Hue bridge and downloaded the Philips Hue app on your smart device, you can set your imagination free and build your very own system!

Hue-ify your home

Select the Philips Hue lights of your choice and connect them to your Philips Hue bridge. The bridge is powerful enough to handle up to 50 lights, so Hue-ify your whole house!

PHILIPS

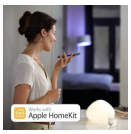
Add up to 10 Hue accessories

In the Philips Hue system, you can also connect up to 10 accessories to enhance your connected lighting experience even further.

Expand your ecosystem

You can connect up to 50 lights and 10 controls to the Philips Hue bridge. You can then control your lights at the swipe of a finger with the intuitive Philips Hue app. Philips Hue is based on ZigBee, a low power, safe and reliable technology to control your lights. New features and improvements are continuously added to the system. Updates to both software and firmware are done wirelessly and seamlessly directly to your Philips Hue products.

Works with Apple HomeKit



The Philips Hue bridge is compatible with Apple HomeKit technology. Ask Siri to turn on or dim your lights or recall presets without touching a single button. Via third-party apps you can even link your lights to other Apple HomeKit enabled devices.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

The bridge

Diameter	88 mm
Height	26 mm
