

Professional machines for advanced users

ThinkStation P3 Series workstations provide affordable power-computing with a choice of processor technologies, expansion bays and support for multiple storage drives.

ThinkStation P348 Tower

Businesses today can rely on this powerful workstation for running business-critical applications with ease. It comes with the latest features, including 11th Gen Intel Core processors for fast loading of applications or programs, and the option of up to NVIDIA T1000 or GeForce RTX 3060 graphics for accommodating the visual computing needs of modern professionals. Plus, it's 92% energy-efficient – means it helps saves power while providing the best computing experience.

With up to 2 TB PCIe SSD storage and PCIe Gen 4 expansion slots, it delivers faster load and instant boot times of applications, saving time and increasing productivity. Optional 3-in-1 Media Card Reader lets you read and write data on memory card, thereby helping thwart hacking and data loss.

It comes with an array of ports for connecting other systems or legacy peripherals, including HDMI, USB Type-A, RJ-45 Gigabit Ethernet, DisplayPort™, or Audio-out.
