DashDrive HV620

The DashDrive HV620 external hard drive offers up to a terabyte of storage capacity, with a sleek and glossy housing that is as easy in the hand as it is on the eye. The latest specification USB 3.0 SuperSpeed interface provides the power and speed needed for conventional storage and backup applications.

Sleek and Glossy

The sleek lines and reflective, smooth surface of the HV620 highlights its thin and elegant overall appearance. It is ideal for those who wish to maintain an aura of professionalism, or show off their technical savvy.

LED Indicator Shows Transfer Status

A bright blue LED lets you know when data is being read from or written to the HV620. This helps prevent disconnection during read/write operations.

Scratch-Prevention Design

A raised lip on the edge of the drive protects the surface from scratching when the drive is laid flat.
