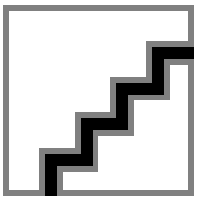
- Personalise your audio expereince

Easy to connect and enjoy
- Seamless connectivity with 2 HDMI inputs
- Fantastic video, photo and music playback via USB
- Easy Share USB to USB file transfer

PHILIPS

Features

Full HD Display



The Full HD screen has a widescreen resolution. This is one of the best resolution of HD sources for the best possible picture quality. It is fully future-proof as it supports 1080p signals from HDMI sources, including the most recent sources such as Blu-ray and advanced HD game consoles connected through HDMI port. The signal processing is extensively upgraded to support this much higher signal quality and resolution. It produces brilliant flicker-free progressive scan pictures with superb brightness and colors

Pixel Plus HD

Pixel Plus HD

Pixel Plus HD offers the unique combination of ultimate sharpness, natural detail, vivid colours and smooth natural motion on all qualities of HD, standard TV signals and multimedia content, for high definition displays. Artefacts and noise in all sources from multimedia to standard TV and also in highly compressed HD are detected and reduced ensuring that the picture is clear and razor sharp

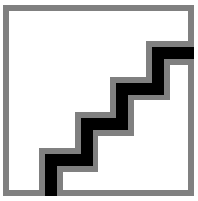
240Hz PMR

240Hz Perfect Motion Rate (PMR) creates extreme motion sharpness for clear and vibrant images in fast action movies. The new Philips PMR standard shows the combined visible effect of the fastest panel refresh rate, HD Natural Motion and unique processing formula, for unprecedented motion sharpness.

Rich & clear sound experience

"Feel the power of the music beat and the atmosphere of the movies. The powerful 20 W RMS (2 x 10 W RMS) amplifiers create a lifelike soundstage. It gives a clear and spacious sound stage complementary to the rich viewing experience.."

7 Band Equalizer



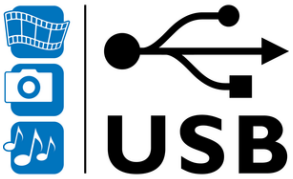
Make your favourite tunes sound spectacular with Philips 7 Band Equalizer, which eliminates unwanted noises and makes certain instruments or voices more (or less) prominent, all according to your preference. Our unique technology helps enhance aspects of an instrument's tone so that when you listen to your music, it is a truly mesmerizing experience.

2 HDMI inputs

HDMI™ x2

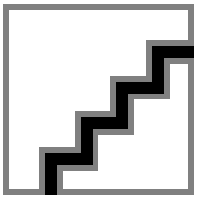
"HDMI makes an uncompressed digital RGB connection from the source to the screen for the ultimate picture quality. HDMI uses HDCP copy protection. With 2 HDMI inputs on the back of the TV you can connect multiple HD sources, for instance an HD settop box, a Blu-ray player, and Game Console or Digital Camcorder."

USB with Video Playback



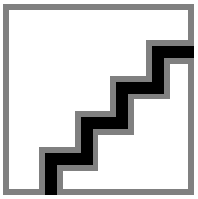
The USB connector allows access to jpeg photos, mp3 music and video files through USB drives. Plug the USB into the slot at the side of the TV and access multimedia content using the easy on screen content browser. Now view your videos, photos and music effortlessly in your TV!

USB to USB file transfer



We never want anything to interrupt your Philips experience. Which is why now you can share your movies, pictures and documents with your friends, using our Philips USB to USB transfer feature. This allows you to transfer data from one USB to another directly through your Philips TV, without the hassle of an additional computer.

Language Select



You can choose the Indian language of your choice when browsing through menu of your Philips TV! The Philips TV Menu now has OSD (On screen display) in these regional languages: HINDI / MARATHI / GUJARATI / TAMIL /

TELGU / BENGALI / PUNJABI, so that the user gets to read the TV menu in his preferred language.
