

Philips Tornado Spiral

- 5 W (25 W)
- Small cap
- Warm white

871016321427610

Smallest energy saving lamp

High brightness

The Tornado is Philips' latest and most powerful energy saver. This brilliant little energy saver is super compact, has more light and saves up to 85% energy. Best of all is that it will fit almost any light fitting in your home!

Sustainable choice
- Save energy from the moment you turn the switch
- Carbon footprint

Full luminaire compatibility
- High performance yet even smaller than current lamps

Beacon of trust
- You can trust what the Philips packaging is saying

Direct light when turning the button
- Only need a few seconds to reach full brightness

Last for a long time
- Long life time

PHILIPS

Spiral
5 W (25 W) Small cap, Warm white

Specifications

Technical specifications

- Shape: Spiral
- Light effect: Warm white
- Wattage: 5 W
- Wattage standard bulb: 25 W
- Fitting/Cap: E14
- Voltage: 220-240 V
- EEL: A
- Dimmable: No
- Lifetime of lamps: 8 year(s)
- Lifetime of lamps: 8000 hour(s)

Highlights

Carbon footprint

Energy savers reduce the amount of energy in your home, which results not only in a lower energy bill, but also in less carbon (CO2) output by your energy supplier. Together we make this a better world to live in.

Compact size and high performance

Our smallest energy savers are just as small as a traditional light bulb. You can now save energy and money in all your luminaires, without compromising on light quality.

Energy efficient

All Philips energy savers save energy from the moment you turn the switch. During their lifetime they use fewer kW and thus also result in a lower energy bill. The level of energy saving differs per lamp type and technology.

Long life time

On average we have our lamps switched on 2.7 hours per day and 1,000 hours a year. The actual burning hours depend on the season (winter vs. summer), weather conditions (sunny day or rainy dark day) and on the room where the lamp is used (bathroom vs. living room). This energy saving lamp will last at least 8,000 hours, thus 8 years.

Rapid start

You now no longer need to wait a while for an energy saver to reach maximum output, simply switch to Philips' energy efficient lamps.

Reliable quality

Philips keeps its promises about lamp performance. You can trust what the Philips packaging is saying about light output, lifetime and wattage equivalent to incandescent lamps.
