

Philips LED Inspection lamps
Multi-Directional Lighting System

3 modules
rechargeable
with docking station

LPL073MODX1

See better, work better

All-in-one lighting system for professionals

The MDLS is an all in one work lighting solution representing a new generation of inspection lamps designed for professionals. Robust and hands-free, the three multidirectional modules will provide you optimal visibility without shadow.

Optimal visibility, no shadow
- High-power LED light
- 300° rotating head
- Light output (boost mode): 600 lumens
- Light output (normal mode): 360 lumens
- Light output for one module: 120 lumens (normal mode)
- Light output for one module: 200 lumens (Boost mode)

Hands-free lighting
- 3 multidirectional modules to illuminate from all angles

High resistance
- Resistant to chemicals and workshop solvents
- Strong impact resistance -IK07
- Water and dust protected -IP54

High autonomy
- Fast Rechargeable, Energy saving LifeP04 battery technology

PHILIPS

Multi-Directional Lighting System
3 modules rechargeable, with docking station

LPL073MODX1

Highlights

Light output (boost mode)

The combined light output of the 3 modules in boost mode amounts to 600 lumens. With 600 lumens light output you can rest assured that you will not be left in the dark when trying to spot even the smallest details.

Light output

The combined light output of the 3 modules in normal mode amounts to 360 lumens.360 lumens light output should provide you with sufficient light in any environment with background lighting. If that is not enough you can easily switch to boost mode with a flick of the switch.

Light output for one module

Every module of the MDLS solution will provide a light output of 200 lumens in boost mode. In boost mode the light will last for 3 hours.

Light output for one module

Every module of the MDLS solution will provide you a light output of 120 lumens in normal mode. In normal mode the light will last for 5 hours.

3 multidirectional modules

The 3 multidirectional modules will provide you full visibility of your work space with no shadow while focusing on specific parts. By placing each of the 3 different modules at a different angle, no area will remain unlit. 360 degrees illumination!

Water and dust protected -IP54

The LED inspection lamp is water resistant and conforms to IP54.

Strong impact resistance -IK07

Strong impact resistance -IK07

300° rotating head

The 300° rotating head will enable you to achieve a shadow-free workspace for optimum safety and efficiency.

Fast Rechargeable

Fast Rechargeable, Energy saving LifeP04 battery technology. Since the modules are fast charging, whenever one of the modules is charged and ready for the job, you can take it out directly.

High-power LED light

As the international market leader in car lighting, we have years of experience and know-how in light. Philips LED inspection lamps are equipped with high power LEDs. Our LEDs combine strong light performance with a natural colour rendering for fatigue-free work.

Specifications

Maximum visibility
- Colour temperature: 5500 K
- Light output (Boost mode): 600 lumens
- Light output (Normal mode): 360 lumens

Robust
- Impact protection rating (IK): IK07
- Ingress protection ration (IP): IP54
- Operating temperature: -30° to 50°

Power
- Battery lifetime: up to 5 hr

Technical specifications
- Operating line voltage: 100-240 V
- Battery run time: boost mode: 3 hours
- Battery run time: normal mode: 5 hours
- Charging time: 1 module: 1 hours
- Charging time: 3 modules: 2 hours

Outer Carton
- Number of consumer packages: 1
- Outer carton (L x W x H): 33.1 x 15.7 x 14.8 cm
- Gross weight: 2.1 kg
- EAN: 87 27900 38770 4

Issue date 2013-10-03

Version: 3.1.4

12 NC: 9237 956 90301
EAN: 87 27900 38770 4
