Tower VMS client
Designed for Security

Item no.: WORKSTATION-PX-I7-16-T2-GF4

Overview

Tower VMS Client

The Tower VMS client range is engineered to fit the requirements we have in the video surveillance industry. Not only based on the hardware but also to fit the VMS software needs. All systems have been hardware tested for 24 hours and tuned with many unique systems settings before leaving the production line, to make sure that the server will run 24 hours per day, year after year.

Workstation-PX-I7-16-T2-GF4

The WORKSTATION-PX-I7-16-T2-GF4 is designed for small and medium enterprise HD surveillance applications, it is ideal to use as a client PC for surveillance systems. The system has 5 inputs - 2 x HDMI and 3 x Display ports.
