

Professional machines for advanced users

Step up to a dual-processor workstation with the ThinkStation P7 Series, designed for advanced computing with large memory and storage arrays.

ThinkStation P720

A dual-processor workstation supporting up to 52 cores in total, 12 memory DIMMs and three PCIe x16 slots for the most powerful graphics cards available today. Our patented Tri-Channel cooling directs airflow over key components using an air baffle inside the machine. This separates the air into 3 zones, reducing the need for additional fans, which increase the risk of system failures if they break down.

Supports up to 12 storage drives and has RAID configurations to optimize performance and provide redundancy. If using high-end processors, install up to 9x M.2 PCIe SSD storage modules.

Certified or recommended for use with: Adobe Premiere Pro, Adobe After Effects, Adobe Photoshop

Scalable multicore processing and error-free ECC memory capacity ensure that this workstation can handle even the most demanding data analysis workloads.

Lenovo services

Lenovo delivers tailored sustainability services, devices, and infrastructure solutions from our broad portfolio, working closely with you to support your target outcomes across the IT lifecycle..

On-site Service

If a problem can’t be fixed remotely, we will visit your location
Normally next business day service
Agreed appointment times

Accessories

NVIDIA Quadro graphics cards

Upgrade your workstation with a range of powerful NVIDIA Quadro graphics cards
Can handle large rendering tasks, visual effects and life-like VR experiences with ease
Fully qualified on ThinkStation machines

PN: Varies by configuration

ThinkStation P720

Performance

Processor
up to 2x 150W Intel Xeon Scalable processors

Operating System
Powered by Windows 10 Pro for Workstations

Memory
up to 768GB (DDR4-2933 RDIMM)

Design

Dimensions
Width: 175mm (6.89"") Depth: 485mm (19.1"") Height (with feet): 446mm (17.6"")

Weight
Maximum configuration: 23.7kg (52.25lb)

Security & Privacy

Access Panel Lock (optional)
Kensington lock slot
Padlock slot
TPM 2.0

Certifications

GREENGUARD. EPEAT Silver rating. ENERGY STAR 6.1 qualified on select models. 80 PLUS Platinum (690W & 900W PSU)
