DANUBE SAVA H500 BLACK

The DANUBE SAVA H500 is a high-quality gaming case that stands out for its spacious interior, perfect for housing high-performance components. With the capacity to accommodate graphics cards up to 430 mm in length and a maximum CPU cooling height of 183 mm, this case gives you the freedom to choose the most powerful components on the market.

Furthermore, the DANUBE SAVA H500 features a design with tempered glass front and side panels, providing a 180-degree view of your internal components, allowing you to appreciate the beauty of your setup. It also offers the option to place both USB and audio connections on the front and side, providing convenient and versatile accessibility.

With the DANUBE SAVA H500, you can enjoy ample space, a clear view of your components, and flexible connectivity, all in a high-quality gaming case that will take your gaming experience to the next level.

Finally, the DANUBE SAVA H500 comes with pre-installed ARGB fans, allowing you to easily and quickly customize the lighting of your gaming rig.
