DO MORE WITH HP ACCESSORIES

HP Wireless Comfort Mobile Mouse Special Edition Titanium

HP Wireless Comfort Mobile Mouse Special Edition Titanium
Get great performance and advanced mousing with the titanium HP Wireless Comfort Mouse, which combines style and ergonomic features in a modern, affordably priced design

- **Style and comfort**
  The sleek titanium symmetric design suits both left- and right-hand users while the rubber coating on both sides gives you enhanced control and comfort
- **Laser performance**
  High-precision laser sensor provides precise, smooth and responsive tracking. No need to travel with a mouse pad as laser tracking works on more surfaces than standard optical mouse tracking
- **Advanced scroll wheel**
  A four-way tilt scroll wheel allows you to navigate right and left. The textured wheel, ratcheted scrolling design and Teflon feet have been optimised to provide control, speed and accuracy
- **Wireless freedom**
  Advanced 2.4GHz wireless technology means less interference, longer range of operation and no wires to tangle. The micro-receiver is so small you can leave it plugged into your notebook (no more broken or lost receivers!)
- **Programmable buttons**
  Two easily-accessible programmable buttons allow you to launch applications, control sound volume, navigate backwards and forward, zoom in and out and launch your favourite websites
