MPN: LVN-CABLEPULL4

Fibreglass cable puller, 4mm, 30m

Use the Lanview cable puller for easy installation of cables through ductwork. The GFRP pull wire features an eyelet, allowing you to attach the cable to the included wire loop. The screw-on head with the eyelet also functions as a guide spring, making it easier to navigate angles and edges.

- Material pull wire: glass-fiber reinforced plastic (GFRP)
- The pull wire has a thickness of 4mm and is equipped with a metal guide spring measuring approximately 13cm in length and 5mm in diameter. It has a maximum pulling force of 60kg. The drum is made from ABS material and comes in yellow, orange, and black colors, with a total length of 30.0m.

Specifications

Features	**InfiniBand protocol**	Yes
	Material	Nylon
	Product colour	Transparent
	Quantity per pack	1 pc(s)
Vendor information	**Brand Name**	Lanview
	Warranty	5 Year(s)
