Highlights

50% thinner and lighter
The Ultra-thin HDMI cable is 50% thinner and hence lighter than ordinary HDMI cables. This makes it convenient to carry along with the portable device that you want to use it with.

Folds easily
The Ultra-thin HDMI cable is very flexible which makes it easy to fold. The flexibility also means that the cable takes far lesser space and can easily be packed with the portable device that it is meant for.

Cable tie included
The Ultra-thin HDMI cable comes with a cable tie in the package. The cable tie makes it easy to fold, store and carry the cable with you.

UHD 2160p
Supports video resolutions up to UHD 2160p. This enables your display to rival Digital Cinema systems used in cinemas.

3D experience
Supports all 3D video formats, allowing true 3D home theatre and gaming applications.

Audio Return Channel (ARC)
Allows an HDMI-connected TV with built-in tuner to send digital audio data to a surround audio system, eliminating the need for a separate audio cable.

24 carat gold-plated connector
24 carat gold-plated connectors ensure the best signal quality for your components.

High-purity copper
This copper conductor provides high accuracy in signal transfer with minimal resistance.

Braided shielding
Copper-braided reinforced aluminium shielding protects against signal loss and interference.
