## Keep Your Network Equipment Cool with Our Roof Mount Fans for 19" Wall-Mount Cabinets

The 2-Fan Ventilation Unit from Intellinet Network Solutions offers reliable cooling and ideal air circulation for 19" wall-mount cabinets, enhancing the performance and longevity of your network equipment. Mounted in the cut-outs on the roof of a cabinet, it effectively dissipates damaging heat at a noise level quieter than a whisper. These standardized cut-outs ensure compatibility with most 19" wall-mount cabinets, including all standard models from Intellinet Network Solutions.

### Thermostat for Energy Efficiency

The built-in thermostat constantly monitors the temperature inside your network cabinet. Its rotary control allows you to easily select a temperature threshold for activating the ventilation fans, which turn off once the temperature drops to an acceptable level. This feature prevents unnecessary fan operation and conserves energy.

**Features:**

- Roof-mount ventilation unit for reliable, energy-efficient cooling in wall-mount cabinets from Intellinet Network Solutions and other brands
