Highlights

Authentic coffee experience

Fresh bean coffee brewed directly and automatically in the portafilter for a 100% authentic coffee experience with zero hidden coffee paths. Freshly ground coffee goes straight from the grinder into the portafilter for the greatest coffee aroma and taste every single time.

One swipe to fresh coffee

Just swipe the handle. Baristina automatically grinds at the perfect, pre-set grind size, tamps and brews your coffee. No need for any barista skills, no adjustments needed. Simply sit back and enjoy your espresso or lungo in less than a minute.

Philips' most compact bean-to-cup

At just 18cm wide, Baristina is Philips' most compact bean-to-cup machine. It seamlessly fits on any kitchen counter without sacrificing performance. Compact, yet powerful enough to deliver rich, barista-style coffee at home. Kitchen space is no longer an issue!

Pick your coffee style

Espresso. Lungo. Extra intense. Adjust the coffee volume as you need. Prefer pre-ground coffee? Simply add it directly into the portafilter, press and hold the intensity button for 5 seconds, and Baristina will tamp and brew it for you - perfect if you want to enjoy a decaf. The choice is always yours!

Easy to Clean. No Hassle.

Remove the portafilter. Rinse it. That's all. Baristina makes cleanup quick and intuitive. No complicated steps - it's designed for simplicity and ease.

Switch between beans

Our dual bean container allows you to switch between different beans or even a blend of the two with a simple turn of the knob. Intense roast to kickstart the day, medium roast whilst relaxing, or even decaf. Just choose the beans to match your mood.

100% ceramic burr grinder

100% ceramic burr grinder. Zero compromise on taste. A consistent grind every time, supporting an even extraction for rich taste and crema.

Your stylish little barista

No guesswork, no tweaking, no coffee wasted. Baristina grinds to the ideal size, precisely pressures and doses with accuracy - all the things that make real espresso taste like it should. It really is your little barista at home.

Less Waste. No capsules.

Fresh beans means more taste. But it also means less waste - no more plastic or aluminum. Simply eject the puck from the portafilter. Your beans turn straight into grounds, perfect for use as compost.

Fresh bean coffee brewed directly in the portafilter for a 100% authentic coffee experience., Swipe the handle.
