TiLED® dvLED Universal M10 Mounting Button Kit, 25 panels **SKU: DVAM10-25**

TiLED® Series dvLED Universal Mounts use mounting buttons that are installed into the back of the LED display, making TiLED Universal mounts compatible with most panels currently on the market. These mounting buttons also allow front or side access for micro depth adjustments.

Extra mounting button hardware kits are available in M5, M6, M8, M10 and M12 sizes in three different quantities.

- 1-panel kits include 4 mounting buttons
- 10-panel kits include 40 mounting buttons
- 25-panel kits include 100 mounting buttons
