
PATCHBOX

Demo Case Technical Specifications

Demo Case

The Demo Case is a compact showcase portfolio that contains everything needed to present the PATCHBOX portfolio professionally. It is designed to help system integrators and sales personnel demonstrate our solutions clearly, give customers a hands-on impression of the products, and support sales conversations with a complete and practical presentation set.

Important note: The Demo Case is intended as a presentation and showcase tool for system integrators and sales personnel. Its contents are standardized to highlight the mix-and-match options available and the flexibility of the products.
