Height Adjustable Tablet Floor Stand (Black)

The Clip Elevate is a height adjustable tablet floor stand designed for environments where flexibility and accessibility are required. It features Bouncepad's spring-loaded Clip jaw system, which holds the tablet in position, with an optional security screw included to lock the jaws in place when required.

Compatible with most 8–13 inch tablets, including USB-C iPads, the Clip system supports POS, visitor management, and assisted selling applications. The open jaw design keeps buttons and cameras accessible for the most popular tablets.

The height adjustable column allows the tablet to be positioned for standing or seated users, while the jaws can be assembled to display the tablet in either portrait or landscape orientation.

A weighted base, integrated cable management, and internal power storage options help maintain a tidy and professional installation.

- - Spring-loaded Clip jaw system to hold the tablet in position. - Optional security screw included to lock the jaws in place. - Compatible with most 8–13 inch tablets, including USB-C iPads. - Height adjustable floor stand. - Weighted base for freestanding stability. - Jaws can be assembled for portrait or landscape display orientation. - Integrated cable management with concealed power storage. - Ideal for POS, visitor management, and assisted selling environments.
