Our most energy-efficient LED lights yet

Philips has developed an Ultra Efficient outdoor light that uses new technology to cut carbon emissions, reduce material waste and lower energy usage. With an amazing 50,000 hour lifetime it lasts more than 3 times longer than the Philips LED outdoor light equivalents – and uses a miniscule 50% of the energy. Just what is needed for a more sustainable planet.

Highlights

Ultra Efficient

Consumes at least 50% less energy compared to equivalent standard LED lights from Philips.

5-year warranty on LED system

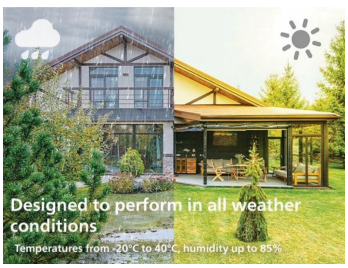

In addition to the standard 2-year warranty offered for this luminaire, Philips also offers a 5-year warranty on the LED system (the LED module and driver).

High-quality aluminium and superior synthetics

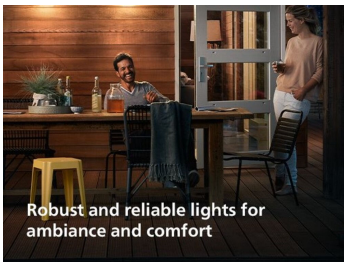

This Philips light is made specifically for outdoor spaces. It's hard-wearing and built to last, so it will light up your garden night after night. It's constructed from high quality die-cast aluminium and superior synthetics.

IP44 – weatherproof

This Philips outdoor light is especially designed for humid outdoor environments and has been tested rigorously to ensure water resistance. Its IP44 rating means that it has been certified to offer ingress protection against dust and splashing water – perfect for general outdoor use.

Bright white light 3,000 K

Did you know that different shades of white light are identified by different colour temperatures, measured in Kelvin (K)? Lower colour temperatures produce a warm, cosy white light, while higher colour temperatures produce a cool, more energising white light. This luminaire produces bright white light at 3,000 K.
