Spill-resistant design

- Easy clean rubber surface
- Protect your device from spilt water

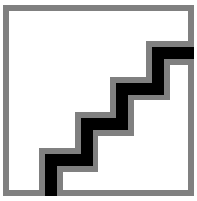
Extra touches for your convenience

- Car adaptor included
- Full Resume on Power Loss
- Enjoy up to 3 hours playback with a built-in battery*
- USB connection for video, photo and music playback

PHILIPS

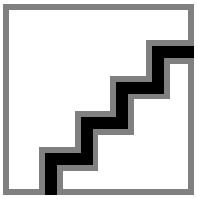
Features

MP3-CD, CD and CD-RW playback



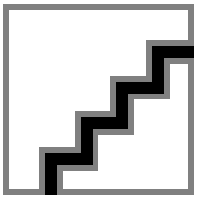
MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without radically degrading their audio quality. A singe CD can store up to 10 hours of music.

View JPEG from picture disc



Play JPEG photos that are saved on your disc. Relive your favourite moments with family and friends anytime you want!

DVD, DVD+/-RW, (S)VCD, CD



The Philips Portable DVD player is compatible with most DVD and CD discs available in the market. DVD, DVD+/-R, DVD+/-RW, (S)VCD and CD – all of them can play on the DVD player. DVD+/-R is a shorthand term for a DVD drive that can accept both of the common recordable DVD formats. Likewise, DVD+/-RW handles both common rewritable disc types.

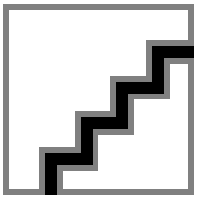
Power Resume

The DVD-Video player remembers where you last stopped watching both if it is powered off directly and if the power supply is discontinued. If you did not change to another disc, your player will resume play where you last stopped the movie just by reloading the disc—making your life a lot easier!

DivX Certified

With DivX® support, you are able to enjoy DivX encoded videos and movies from the Internet, including purchased Hollywood films. The DivX media format is an MPEG-4-based video compression technology that enables you to save large files like movies, trailers and music videos on media like CD-R/RW and DVD recordable discs, USB storage and other memory cards for playback on your DivX Certified® Philips device.

USB connection



Simply plug in your portable USB device to the USB connector on your Philips portable DVD player and playback your digital videos, music or photos directly. Now you can share your favourite moments with family and friends.

Spill-resistant design

The device is built to resist accidental spillages. The spill-proof design with its rubber surface prevents liquids from damaging electrical or mechanical components, and it is easy to clean.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Product dimensions

Width	20.2 cm
Height	4.2 cm
Depth	16.2 cm
Weight	0.82 kg

Picture/Display

Diagonal screen size (inch)	7 inch
