- Dual-sided design

TT2039/15

Powerful trim, precise shave

Everywhere below the neck

The ultimate all-in-one solution, the Series 7000 features an integrated trimmer on one side and a skin-friendly contour system on the other, for a comfortable and convenient trim or shave, anywhere below the neck.

Benefits

Skin-friendly performance

- Adapts to the surface of your body for a precise shave
- Rounded tips and hypoallergenic foil for skin comfort
- Includes adjustable comb, trims hair from 3-11 mm

Easy to use

- 50 minutes cordless use after an 8-hour charge
- Easy to clean and use in or out of the shower
- Ergonomic grip for maximum control

Built to last

- 2-year guarantee, worldwide voltage, no oiling needed

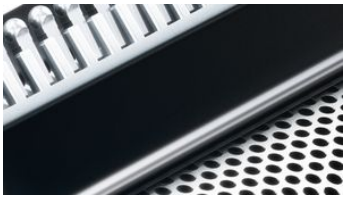
PHILIPS

Features

Skin contour system

The skin contour system catches and cut hairs of different lengths, without the need for multiple tools or skin contact with sharp edges. The bi-directional trimmers cut longer hairs, which are shaved by the foil for a closer result. The added flexibility of the contour system follows every angle and surface of your body for precisely the look you want.

Skin-friendly tips and foil



The skin comfort system features a hypoallergenic foil and rounded tips to protect your skin while shaving.

Integrated trimmer with comb

The integrated trimmer and adjustable comb with 5 length settings are designed to offer more power to cut even the thickest hair. To maintain your desired hair length or get a natural look, adjust the comb to a length between 3 and 11 mm. You can use the shaving system on the other side for a closer result.

Rechargeable battery power

High-power NiMH battery for full-body use, with 50 minutes of cordless use after an 8-hour charge. The battery light indicates power status when the battery is low or full.

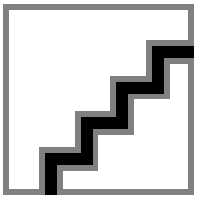
100% showerproof

Provides a comfortable and close result in and out of the shower. The body groomer is 100% showerproof, so you can simply rinse it clean when you've finished. For longer hair, trimming performance may be better on dry hair.

Ergonomic grip

The rubber grip is designed to ensure optimal handling even when wet, for better control during use, in or out of the shower.

Built to last



All of our grooming products are built to last. They come with a 2-year worldwide guarantee and worldwide voltage compatibility, and they never need to be oiled.
