

Philips Fidelio
Bluetooth headphones

40-mm drivers/closed-back

On-ear
Deluxe memory foam cushions
Flat folding

M1BTBL

High fidelity, premium quality. Wherever you go.

High Definition Bluetooth® 4.0 connectivity makes the Philips Fidelio M1BT perfect for music indoors or on the go. Easy to use controls located on the headphone ear shell allow you to switch seamlessly between music and calls.

Crafted for sound

- HD optimally vented 40 mm neodymium speaker drivers
- Excellent passive noise isolation
- Closed-back architecture provides excellent sound isolation
- Speakers tilted to the ear's natural angle for clarity
- Carefully tested drivers for the best balance in sound

Created for convenience

- Bluetooth® 4.0
- Earshell buttons for controlling music and calls
- 1.2-metre audio cable for when your battery runs out
- 1-metre USB charging cable for recharging
- Two built-in microphones for improved call quality

Crafted for comfort

- Deluxe memory foam cushions for an ergonomic fit
- Premium genuine leather headband — stylish yet comfortable

M1BTBL/00

Highlights

1-metre USB charging cable

1-metre USB charging cable for recharging

1.2-metre audio cable included

The included 1.2-metre detachable audio cable allows headphones to be plugged directly in to devices, keeping music going even when the headphone battery has been exhausted.

40 mm high-definition drivers

Each speaker is carefully tested and arranged to ensure the most balanced and natural sound. The 40 mm drivers use high power neodymium magnets to deliver true high-definition sound in a wide dynamic range, reproducing even the minutest details.

Aluminium earshells

Aluminium earshells selected for their strength reduce unwanted vibration and resonance. A double-layered construction allows the headphones to be more rigid, effectively dampening the vibration for an accurate sound.

Bluetooth 4.0

Advanced Bluetooth® 4.0 technology makes for superb, high-definition musical enjoyment.

Closed-back architecture

The acoustic closed-back architecture is specially designed to eliminate any unnecessary sound leakage and preserve sound details. The result is excellent bass extension.

Deluxe memory foam cushions

The materials used for the Fidelio M1 have been carefully selected to ensure long-wearing comfort and enhanced sound performance. Memory foam earpads with breathable materials disperse pressure and heat build-up, so the Fidelio M1 headphones feel and sound exceptional.

Earshell controls

Intuitive buttons placed conveniently on the earshell make it easy to switch between music and calls. Change track, volume, play and pause your music, or pick up, hang up and change the volume of any phone call.

Excellent noise isolation

The combination of a closed-back design, precision construction and memory foam cushions prevent unwanted background noise from interfering with the music.
