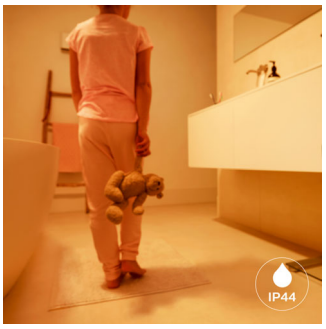
Highlights

Seeing well is essential
Being able to see well is essential for good results at the mirror, which is why each lamp features a high-quality light source for confident grooming. The bathroom lighting range uses the latest energy-saving technology for good quality light that provides plenty of illumination without being harsh.

Many applications
There's a wide choice of wall and ceiling lights. The collection offers large ceiling lights that light your whole bathroom in a comfortable and pleasant way. In addition, there are wall lights that provide clear, bright light without shadow for precision tasks at the mirror, such as shaving, applying make-up and putting in contact lenses.

Fill your bathroom with light
InStyle bathroom lamps enhance any bathroom decor with their stylish and solid construction. Hard-wearing premium materials like brushed steel, aluminium and glass are complemented by careful attention to the smallest details, such as smooth, rounded edges and machined surfaces with no protruding parts. There's a range of contemporary designs and elegant decorative touches with a clean and simple style.

IP44 - bathroom-safe



This Philips bathroom light is especially designed for humid environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This bathroom light is designed with IP44: it is protected against splashing water. This product is most commonly used and ideal for the bathroom.

Extremely long life lamps

The range offers a variety of compact fluorescent energy-saving lamps for general ambient bathroom lighting. Once an InStyle bathroom lamp is installed you won't have to worry about replacements or repairs, and you'll save energy and money too.

Energy saving

This Philips light conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

Specifications

Design and finishing
- Material: aluminium, synthetics
- Colour: white

Extra feature/accessory incl.
- Fluorescent lamp(s) included
- Waterproof

Product dimensions and weight
- Height: 10.7 cm
- Length: 37.9 cm
- Width: 37.9 cm
- Net weight: 2.335 kg

Technical specifications
- Mains power: 230 V, 50 Hz
- Bulb technology: fluorescent, 230 V
- Number of bulbs: 1
- Fitting/cap: 2GX13
- Wattage bulb included: 40 W
- Maximum wattage replacement bulb: 40 W
- Light colour: warm white
- Fixture dimmable: No
- LED: No
- Built-in LED: NO
