Outer Carton
- Outer carton (L x W x H): 56.5 x 33.5 x 35 cm
- Nett weight: 7.6 kg
- Gross weight: 12.3 kg
- Tare weight: 4.7 kg

Inner Carton
- Inner carton (L x W x H): 32 x 27.5 x 8 cm
- Nett weight: 1 kg
- Gross weight: 1.5 kg
- Tare weight: .5 kg

Highlights

30mm diaphragm
This large, sensitive diaphragm picks up every detail of the human voice, and delivers faithful, crisp reporduction.

Built-in Volume Control
A handy slider control that sets the loudness to the level you prefer.

Dynamic Shock Absorption
Dynamic shock absorption ensures that vibrations caused during handling are not transferred to the active part of the microphone. You clearly hear what's said - without disturbing handling noise.

Low noise switch
You'll not hear any annoying 'clicks' when switching this microphone on and off.

Uni-directional design
This microphone is most sensitive to sound coming from the direction of the performer, and far less sensitive to sound form all other directions. The result is clear voice reproduction with little risk of feedback from speakers on stage.

Windshield
The integrated windshield prevents disturbing noises from wind gusts or breathing too close to the microphone.

5m microphone cable
Give yourself extra freedom of movement when using your microphone.
