CSVWCRPB

StreamVault™ Wireless Card Reader with Powerbank

The StreamVault™ Wireless Card Reader with Powerbank allows you to wirelessly transfer data between storage devices, supporting both SD card and USB input. The StreamVault™ also provides a powerful mobile power source with a high capacity 5000mAh battery to keep your files moving all day long – up to 12 hours of continuous streaming. The innovative device can stream up to 5 devices simultaneously, and also allows you to share your wireless signal, acting as a mobile hotspot for other devices within network range. A compact, powerful mobile media centre in one small and convenient reader!

Highlights

> 5000mAh high capacity battery powerbank. Sustains 12hrs of continuous streaming
> Supports SD card / USB storage devices
> All-in-one wireless access point and portable storage
> Free app for iOS and Android
