Epson **Stylus Office BX535WD**

DATASHEET

This compact all-in-one is ideal for small busy companies who need to improve office efficiency and are also keen to keep costs to a minimum. The added benefits that come with its Ethernet and Wi-Fi connectivity and mobile printing will also be an important deciding factor.

With fast print speeds, fast double-sided printing and no warm-up time, staff are able to continue with their work rather than waiting for their documents to finish.

The economical BX535WD can provide savings of up to 50 percent on cost per page compared to competitive lasers[1].

Ethernet and Wi-Fi connectivity means multiple users can print, scan and copy quickly and efficiently to just one machine. WPA2 encryption provides enhanced security over Wi-Fi too.

The 6.3cm colour LCD screen and the memory card slot offer easy-to-use PC-free printing. No more waiting for office computers to power up; printing directly from a memory card allows greater flexibility and is straightforward. The BX535WD also comes with Epson Connect which offers even more flexibility and freedom, allowing users to quickly and easily print photos and documents wirelessly from smartphones and tablet PCs[3].
