

ICY BOX
IB-141CL-U3
4 bay Clone and DockingStation for 2.5" and 3.5" SATA HDDs/SSDs with cloning function and USB 3.0

Key features

- JBOD - the PC detects 4 independent drives
- HDD/SSD-cloning function without PC: Create an identical copy of your hard disk drive
- Stylish premium aluminium case
- Supports both 2.5" and 3.5" SATA HDD/SSD, unlimited capacity
- USB 3.0 host interface up to 5 Gbit/s
- Plug & Play and HotSwap
- LEDs for power, HDD access, clone progress
- Supported operating systems: Windows®, macOS® and Linux

Packing content
1x IB-141CL-U3, 1x external power supply, 1x USB 3.0 cable , 1x manual

All good things come in focus

If you have got a closet full of HDDs at home, you will surely appreciate this quadruple dock for 2.5" and 3.5" SATA HDDs/SSDs. Each HDD is recognized as an individual drive and can be easily accessed. The cloning function can run even without a PC, which turns backing up HDD to multiple targets a breeze. The IB-141CL-U3 is not only very practical and efficient, but also makes a good visual impression. Thanks to the fact that where most other manufacturers use only plastic, ICY BOX is using high-quality aluminium.
The connection to a PC or laptop is realised via a rapid USB 3.0 port. Thanks to the downwards compatibility, even an older USB port (2.0/1.1) can be used. But 5 Gbit/s is only achieved while using USB 3.0. The device installation is as fast, thanks to the Plug & Play support as no drivers are necessary. A classy LED indicator provides us with information regarding HDD access and cloning progress.

Technical data

Modle	IB-141CL-U3	**Transfer rate**	Up to 5 Gbit/s
Article No.	20919	**HDD capacity**	Unlimited
EAN code	4250078189657	**Hot Swap**	Yes (JBOD mode)
Brand	ICY BOX	**Plug & Play**	Yes
Colour	Black / silver	**Operating system**	Windows®, macOS® and Linux
Material	Aluminium + plastic	**LED**	Power / access / clone progress
HDD interface	4x 2.5"/3.5" SATA	**Power Supply**	AC: 100 - 240 V / 50-60 Hz/1,5A, DC: 12 V / 6.5 A
External data interface	1x USB 3. 0	**Power switch**	Yes

ICY BOX **IB-141CL-U3**
4 bay Clone and DockingStation for 2.5" and 3.5" SATA HDDs/SSDs with cloning function and USB 3.0

The clone war is over

In this DockingStation four 2.5" and 3.5" HDDs or SSDs can be used at the same time. The maximum height of a 3.5" hard disk should not exceed 25,4 mm. The maximum height of a 2.5" hard disk is not limited.

No must

Of course you can use the CloneStation as a pure HDD dock, so you can read and write all the hard disks as usual. Using the USB 3.0 host this happens at a transfer rate of up to 5 Gbit/ s.

An outsider

Cloning bootable disks without connection to a PC, is often called stand-alone. Thus, the previously occupied USB 3.0 port is free for other devices during the clone process.

Logistical data

Packing unit:	10 pcs./carton	**Dimension/carton:**	651x407x179 mm
Total weight:	15.48 kg/carton	**Dimension** (with packing)**:**	190x140x125 mm
Gross weight: (with packing)**:**	1.43 kg	**Dimension of article:**	173x123x68 mm
Net weight:	0.75 kg	**Country of origin:**	China
