Highlights

40-mm quality neodymium driver

High-quality 40-mm neodymium drivers reproduce a wide frequency range, accompanied by crystal clear, deep and rich bass.

Built-in microphone

Your CitiScape headphones feature a built-in microphone so you can easily switch from listening to music to taking phone calls. It's a breeze staying connected with your music — and with the people who matter most to you.

Closed acoustic design

Be part of the city's buzz but not its noise. With the closed acoustic on-ear design, every sound detail is isolated, allowing you to enjoy greater music detail as well as extended and dynamic bass.

Flexible metal arm design

Inspired by bike wiring, the ear shells and headband are connected by lightweight but durable metal wiring, ensuring secure, long-wearing comfort.

On-ear soft cushions

On-ear soft cushions comfortably hug the contours of your ears for the best possible fit – whatever your head shape. Immerse yourself in your music for as long as you like – in fact, they feel so good that you may even forget that you have them on!

Precisely tilted ear shells

Pre-tilted ear shells perfectly fit your ear's natural angle, providing an excellent sound seal so you can truly immerse yourself in your music.

Stylishly embossed headband

Inspired by chic monogram branding, the CitiScape Fixie's headband is innovatively embossed as a distinct fashion statement. Step out in comfort and bold style.
