

Philips

docking entertainment system

- with 30-pin connector
- for iPod/iPhone

DCM129/05

Relax to great music

Obsessed with sound

Experience your iPod music in superb sound quality with the Philips DCM129 Docking Entertainment System. Just dock your iPod and enjoy music the way you like it. DCM129 also offers fast and precise tuning via its 20 preset stations.

Benefits

Enjoy your music from multiple sources

- Play CD, CD-R and CD-RW
- MP3 Link for portable music playback
- Play and charge your iPod/iPhone simultaneously

Enrich your sound experience

- Dynamic Bass Boost for deep and dramatic sound
- Bass Reflex Speaker System delivers a powerful, deeper bass

Easy to use

- Digital tuning with 20 pre-set stations for extra convenience
- Single remote control for the system and iPod
- Compact design

PHILIPS

Features

Dynamic Bass Boost

Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimise the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by causing the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a completely new dimension of deep bass.

MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.

Play and charge your iPod/iPhone

Enjoy your favourite MP3 music while charging your iPod/iPhone! The dock lets you connect your portable device directly to the Docking entertainment system so you can listen to your favourite music in superb sound. It also charges your iPod/iPhone while it plays so you can enjoy your music and not have to worry about your portable player battery running out. The Docking entertainment system automatically charges your portable device while it is docked.

Specifications
