Never miss a message

- Direct access answering machine on base and via handset
- Up to 12 minutes recording time

Save Energy

- Low power consumption: < 0.65 W in standby mode

PHILIPS

Features

Handset speakerphone

Hands-free mode uses a built-in loudspeaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

Low power consumption: < 0.65 W

Philips phones are energy efficient and are designed to be respectful to the environment. Now the power consumed in standby mode is less than < 0.65 W.
