Benefits

Optimal eye comfort

- Customised optics for even light distribution
- Designed to reduce glare and eye strain

Helps you stay focused

- Cool daylight ideal for focus and concentration

Create ideal light setting

- 3-step dimming adjustment

PHILIPS

Features

Even light distribution

With the customised optics in Philips EyeCare desk lamps, you get light that is diffused and evenly distributed across your workspace. This reduces uneven lighting and dazzle, which normally leads to tired eyes and general eye fatigue.

Cool daylight

Various findings have pointed out that a cool daylight colour temperature of 5500K and up to 1000 lux promotes concentration by maintaining energy levels and alertness with natural light levels.

Reduces glare and eye strain

The combination of customised optics and high-quality cool white LED light in this Philips EyeCare desk lamp helps to reduce glare and eye strain. Comfortable and with no visible flickering, it helps to support optimal eye comfort.

3-step dimming adjustment

When it comes to the intensity of light required for reading or doing tasks, preferences differ. As such, this Philips EyeCare desk lamp comes with 3-step dimming adjustment to allow you to do just that.
