Highlights

Even light distribution

With the customised optics in Philips EyeCare desk lamps, you get light that is diffused and evenly distributed across your workspace. This reduces uneven lighting and dazzle, which normally leads to tired eyes and general eye fatigue.

Reduces glare and eye strain

The combination of customised optics and high-quality cool white LED light in this Philips EyeCare desk lamp helps to reduce glare and eye strain. Comfortable and with no visible flickering, it helps to support optimal eye comfort.

Cool daylight

Various findings have pointed out that a cool daylight colour temperature of 5500K and up to 1000 lux promotes concentration by maintaining energy levels and alertness with natural light levels.

Tap on/off switch

This easy-to-use Philips EyeCare desk lamp switches on with a gentle tap of the finger. Simply tap to switch on and off.

5-year warranty on LED system

On top of the standard 2-year warranty for this lamp, Philips offers a 5-year warranty on the LED system, meaning the LED module and the driver in this lamp.

Specifications

Design and finishing
