

APC Mobile Power Packs M3PMBK

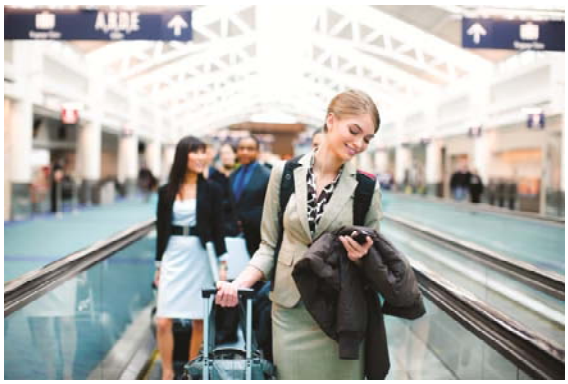
M3PMBK

Stay connected throughout life's journeys

You'll never worry about your devices dying in a critical moment again. The M3PMBK charges all USB powered devices including smartphones, tablets, media players, wearables, portable gaming consoles and cameras.

Reliable, safe power anywhere you go

APC mobile power packs have industry-leading safety features, including over-temperature protection. When the battery temperature is above the safe operating range, the unit automatically shuts down, safeguarding the unit and battery.



Premium Power and Safety

8 layers of safety features including protection from over-heating. Safety tested and approved by regulatory agencies.

Everything you need in one product

Easily charge your mobile devices with the captive micro-USB cable. Retractable plug allows for convenient power pack charging.

Pass-through charging

Spend less time charging, and more time doing. Charge your mobile power pack and connected devices at the same time.

Efficient charging

Saves battery life and energy by automatically shutting down when the connected devices are fully charged.

1 year warranty

Comes with a full one year warranty.
