Design for you

- Touch UI with display

PHILIPS

Air Purifier
Special NightSense Mode Room size: 18-31 m2, Partical CADR: 260 m3/h, VitaShield IPS

AC1212/00

Highlights

NanoProtect Pro S2 Filter
The extra thick NanoProtect Pro S2 Filter is designed for superior purification efficiency and lifetime against airborne particles.

NightSense Mode

NightSense Mode is developed especially for your bedroom; The air purifier rapidly prepares your bedroom air for sleep and constantly monitors your bedroom air quality, delivering clean air while you sleep. The dimmed and/or switched off lights and the low sound help you and your family sleep better.

Healthy air protect

The healthy air protect alert lets you know promptly when it is time to replace the filter. If the filter is not replaced promptly, the appliance stops functioning - to avoid ineffective purification. So you are assured of healthier air always.

Certification

Certified or tested by ECARF and Airmid*

Real-time air quality feedback
The color ring on dashboard provides a clear view on air quality by 4-step color, ranging from blue (good allergen & particle level) to red (bad allergen & particle level).

Child lock

Child lock prevents unintended changes in settings

Sensor touch
Sensor touch UI

Allergen Mode

The Allergen Mode includes a special event detection algorithm that can deal with daily events such as shaking pillow or a vacuum cleaner passing by. After accurately detecting these events, the purifier will automatically give an extra boost to airflow to instantly reduce the risk level of allergens to a minimum.

VitaShield IPS

Vitashield IPS with its aerodynamic design and NanoProtect Pro Filter has a boosted clean air delivery rate up to 260 m3/hr. It can effectively remove ultra-fine particles as small as 0.02um. Also it filters out harmful gases such as formaldehyde and TVOC.

Specifications

Performance
- Room size: 18-31 m²
- CADR (Formaldehyde): 178 m³/h
- CADR (Smoke): 260 m³/h
- Filters out PM2.5: 99 %
- Filters out H1N1 Virus: 99.9 %
- Filters out bacteria: 99.9 %
- Sound Pressure: 33 dB

Features
- Particle sensor
- Fan speed: 1,2,3,-Turbo

Design and finishing
- Color(s): White
- Color of control panel: Black
- Control panel type: Touch

Technical specifications
- Voltage: 220 V
- Frequency: 50 Hz
- Cord length: 1.6 m
- Power: 50 W

Weight and dimensions
- Dimension of product (LxWxH): 541 x 325 x 211 mm

Country of origin
- Made in: China

Sustainability
- Packaging: > 90% recycled materials
- User manual: 100% recycled paper

Service
- 2-year guarantee

Issue date 2016-11-23

Version: 5.1.1
