PHILIPS
sense and simplicity

Highlights

16 million colors

State-of-the-art LED's create millions of colors, including white light.

Adjust colored and white light

Change color, dim or adjust intensity of colored light, dim white light. And pick the best combination of the two.

Adjust one light or all

When connected to other Philips LivingAmbiance products, you can change color, dim or adjust intensity of colored light luminaires and dim white light luminaires.

Automatic color changing mode

To select automatic color changing, sweep your finger around the color wheel and press the 'I' button. Adjust the speed of color changing by selecting a color – from blue for just 5 seconds to purple for a full hour.

Dimming and color intensity

Adjust the brightness to suit your mood. Add more white to the color to get the perfect subtle shades.

Easy to use remote control

Simply touch to change color, dim or adjust color intensity to get your favorite setting.

High quality white light

High-quality halogens give warmer light when dimmed.

One remote for all lights

All of the LivingAmbiance products work together via the same intuitive remote control, with which you can dim or change the colour of your lights – individually or together – in any combination you please. You can recognize which products work together by looking at the box or the product itself. If there is a SmartLink logo, it means the product will work with other SmartLink products.

Recall your scene with a touch

Press one of the three scene buttons to recall your saved lighting settings.

Store 3 lighting scenes

Set this luminaire, or a combination of luminaires, to your preferred setting. Choose your favorite color(s) (including dim and saturation level). Press and hold one of the scene buttons to store it.
