AE5600W/12

Enjoy your favourite radio

with one-touch access to pre-set stations

Enjoy your favourite DAB/FM stations with just a touch with Philips portable radio. Digital tuning and three one-touch presets make this radio easy to use. The large backlit LCD display provides easy viewing even in low light.

Benefits

Enjoy your favourite stations

- Built-in speaker to enjoy radio out-loud with a good sound
- Digital tuning with preset stations for extra convenience
- Stereo headphone jack for better personal music enjoyment
- DAB and FM compatible for a complete radio experience

Easy to use

- Built-in clock function
- Large backlit LCD display for easy viewing in low light
- Low battery indicator keeping you informed of power level
- Mains or battery operated for flexible placement
- Direct preset keys for quick access to stored radio stations

Features

Built-in clock

A built-in clock keeps time accurately. When the radio is off, the clock display comes on for added convenience.

PHILIPS

Large backlit LCD display

Backlit LCD display ensures easy viewing and operation in low light conditions, and provides clear information at a glance.

Built-in speaker

A speaker offers good sound quality for more pleasure.

Digital tuning with presets

Stereo headphone jack

Connect your own headphones with this Philips device for a more personal listening experience whenever you want it. You can enjoy your favourite music in great sound without disturbing others by connecting your headphones to this device.

Low battery indicator

The low battery indicator lights up when the power is low.

Mains or battery operated

Power your Philips radio set with batteries or a direct mains supply, and enjoy great convenience and flexibility. When a power socket is not available or when you don't want unsightly wires trailing, simply operate the set with batteries. When you need a continuous and stable power supply, connect the set directly to a wall socket. Now you can truly enjoy the freedom of listening wherever you like.

DAB and FM compatible

DAB (Digital Audio Broadcasting) digital radio is a new way of broadcasting radio, in addition to FM analogue transmission, via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in clear, crackle-free sound quality. The technology allows the receiver to lock on to the strongest signal it can find. With DAB digital stations there are no frequencies to remember, and sets are tuned by station name, so there is no retuning on the move.

Direct preset keys

Direct preset keys for quick access to stored radio stations
