MS530/51

Effectively remove excess oil and black heads

Philips Brush docking set combines three unique brushes to be used in different skin issues for VisaPure men users. It can effectively remove excess oil with normal brush and black heads with deep pore and precision brush.

Convenient to use
- Docking plate keeps brushes clean and easy to store

Effectively remove black heads
- Deeply clean the pores and help to reduce black heads
- Cleansing the hard to reach areas

Excellent oil cleansing and oil control effect
- Cleansing excess oil with long lasting oil control effect

Highlights

Brush set with docking plate
Brushes bring effective cleansing benefit and dicking plate helps to keep brushes clean and easy to store.

Deep pore brush
For deeply cleansing pores to remove black heads and make pores less visible. Replace every 3 months.

Oil control
For daily cleansing to deeply remove oil and give better oil control effect. Replace every 3 months.

Precision brush
For thoroughly cleansing the hard to reach areas around nose together with deep pore brush heads. Replace every 3 months.
