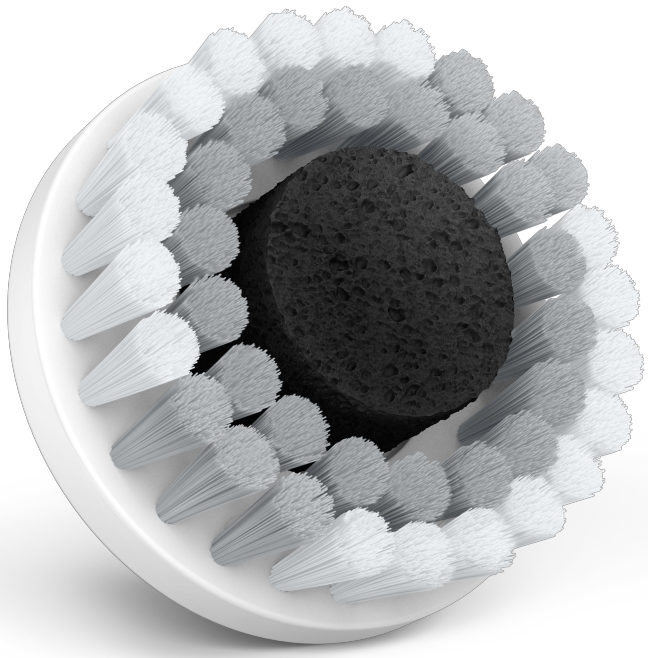
Brush Head Replacement

Anti-pollution brush head

Charcoal sponge

MS599/51



Anti-pollution cleansing with charcoal sponge

For better-breathing skin

The patented brush head consists of an outer ring of power bristles, that effectively draw out oil and dirt from the pores and a bamboo charcoal sponge in the center, that removes pollutants on the surface like a magnet.

Anti-pollution cleansing

- Combines bamboo charcoal sponge with powerful bristles
- Use it day or night to boost your daily skincare routine

Developed for all skin types exposed to pollution

- Unique design for comfortable, yet thorough cleansing

Easy to use

- Replace the brush head every 3 months for a hygienic use
- Compatible with VisaPure Men and SmartClick shaver brushes

Highlights

Removes PM2.5 and excess oil

The bamboo charcoal sponge in the center contains active carbon, which is known for its superior pollution absorption properties. While the sponge draws out PM2.5 like a magnet, the power bristles in the outer ring effectively cleanse the hard to reach areas and remove excess oil.

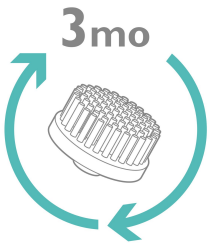
Boosts your daily routine

The unique combination of bristles and charcoal sponge makes this brush harsh on dirt, yet gentle on the skin to enable usage twice per day.

Developed for all skin types

The 17,000 thin bristles and the soft bamboo charcoal sponge create a comfortable cleansing experience for all skin types, especially those which are exposed to high-levels of pollution.

Replace heads every 3 months



To keep your VisaPure MEN hygienic, replace your brush head every 3 months by simply clicking on a new brush head replacement onto your VisaPure MEN.

Compatibility

Compatible with Philips VisaPure Men, the SmartClick Facial Cleansing Brushes of Philips Shaver Series 9000, 7000 and 5000.
