

PetCam

Peer-to-peer VGA Pan/Tilt Surveillance Camera with IR Night Vision, 2-Way Audio, Wireless G Connectivity and Viewing App for iOS and Android

Part No.: 551373

Keep an eye on your pets from virtually anywhere using your smartphone or tablet (iOS or Android) with the PetCam from Manhattan. The PetCam is a network-connected pan-tilt camera designed with both ease of use and great performance in mind. It is equipped with a VGA (640 x 480) image sensor for great-looking streaming video, as well as an internal microphone and speaker that allow you to listen and talk remotely through the camera. Its unique globe-shaped design and quiet pan-tilt motor let you intuitively adjust where the camera is pointing via a free viewing app (available on the Apple App Store, Google Play and Amazon Appstore), and an IR illuminator provides around-the-clock surveillance with built-in night vision.

Remote viewing is quick and easy to set up (even if you don't consider yourself very technically inclined). Just download the free app and scan the QR code on the bottom of the camera to connect — no special network configuration or port forwarding is needed. Plus, there are no hidden cloud-service or third-person server costs — you have full control of your camera, your video and who can view it.

Features:

- Watch your pets from virtually any tablet, smartphone or computer
- Easy installation process
- Free iOS and Android viewing app available
- Connects wirelessly to your home network
- Automatic IR-LED illumination for night vision (up to 8 meters / 26 feet)
- 355-degree pan-tilt controls via your smartphone or tablet
- Progressive-scan image sensor provides excellent image quality
- Supports image resolutions up to 640 x 480 (VGA)

- Integrated microphone and speaker
- Three-Year Warranty

Specifications:

Standards
• IEEE 802.11b (11 Mbps Wireless LAN)
• IEEE 802.11g (54 Mbps Wireless LAN)
• IEEE 802.3 (10Base-T Ethernet)
• IEEE 802.3u (100Base-TX Fast Ethernet)

General
• 32-bit RISC CPU
• Supported image resolutions:
- Motion-JPEG: 640 x 480 and 320 x 240
• Video frame rate: max. 30 fps @ 60 Hz, 25 fps @ 50 Hz
• Audio support:
- Full duplex
- Microphone: built-in
- Speaker: built-in
- Audio line out jack: 3.5 mm / 1.8"
• Certifications: FCC Class B, RoHS, CE

Image Sensor and Lens
• 1/4" progressive-scan CMOS sensor
• 300,000 pixels
• S/N ratio: > 48 dB
• Manual brightness, contrast
• Automatic white balance (WB) and back light compensation (BLC)
• Minimum illumination: 0.4 lux at F2.0
• Focal length: 3.6 mm

Pan/Tilt Control
• Viewing angle: 355° horizontally and 120° vertically
• Control via point-and-click on tablet or smartphone
• 16 preset positions

Network
• LAN connector: RJ45 port to connect to 10/100 Mbps Ethernet
• Wireless b/g with fixed antenna

Power
• External power adapter: 5 VDC, 2.0 A

System Requirements
• iPhone or iPad
• Smartphone or tablet running Android 4.x
