The new Ariete steam cleaner exploits the natural power of steam for cleaning any kind of household surface. Thanks to steam adjustment, it is a perfect aid for sanitizing the whole house: tiles, glasses, parquet, marble ...it suits any floor! The special attachment makes it also suitable for rugs and carpets. The steam adjustment ensures the proper supply according to the kind of floor selected, therefore the clean surfaces dry in few minutes. It can be used on all sealed floors and/or floors that can be treated with steam.
