Highlights

Dark chrome stand
From top to bottom this is a TV with presence. Our designers used dark chrome for the stand to match the solid metal detailing of your TV, because they understand real metal makes a quality statement.

Extend your sound system
Surround yourself in beautiful sound by extending the 8600 speaker system with a pair of speaker bases. This union combines the power of two speakers at the back of the TV with 16 microdrivers in the left and right of the detachable speakers, and two mid-range speakers in the speaker stands. Altogether they deliver a broad, rich sound spectrum with pure, balanced sound quality.

Full freedom
Simply place the speakers where you want. The stands allow wireless streaming of high quality sound from your TV, giving you the freedom to create a truly captivating sound experience anywhere in your home.

Modern design
Designed with a contemporary look to blend with your d¨¦cor. Because your TV should look as beautiful off as it does on.
