- Height: 13.9 cm
- Length: 10.1 cm
- Width: 8.1 cm
- Weight: 0.156 kg

Miscellaneous
- Especially designed for: Living- & Bedroom
- Style: Expressive
- Type: Accessories

Highlights

High quality LED light

The LED technology, integrated into this Philips lamp, is a uniquely developed solution by Philips. While instantly turned on, it enables an optimal light output and brings out vivid colors in your home.

On/off switch on article

With the button discreetly integrated onto the lamp, you can easily switch the light on and off.

Lightweight and portable
Battery operated and lightweight, this portable lamp can be used anywhere in the home. Bring light to tricky-to-reach areas, such as dark corners, stairwells and passageways, or supplement the general illumination provided by overhead lighting. Works great as a reading, bedside or night light too, with a stylish design that complements any decor.

Convenience out of the box
Battery operation means no trailing cables to spoil your décor or trip over. And since you don't need a power socket, you can place the lamp anywhere you need light. It's convenience straight out of the box.

Personalize your lighting
It's easy and fun to display your favourite pictures. Print the photo you want to use to standard printing paper using the online template. Then simply slip it into the slot provided behind the glass with the image facing outwards.
