- Directed light, perfect for task lighting

Sustainable light solutions

- High quality LED light
- Warm white light
- Energy saving
- Long operating life of up to 20 years

Special characteristics

- Flexible arm
- On/off switch on article

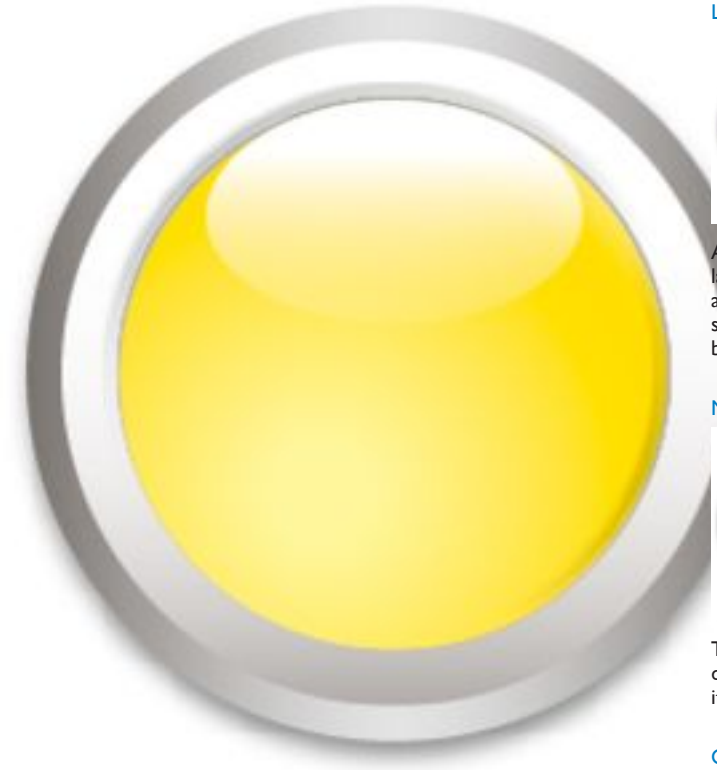
PHILIPS

Features

High quality LED light

The LED technology integrated into this Philips lamp is a unique solution developed by Philips. It turns on instantly, enables an optimal light output and brings out vivid colours in your home.

Warm white light



Light can have different colour temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

Energy saving

This Philips energy-saving lamp conserves energy compared with traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

Flexible arm

Long operating life

A light source you can trust. The integrated LEDs used in this Philips LED lamp will last up to 20,000 hours (which equals 20 years on the basis of an average use of 3 hours/day with at least 13,000 on/off switching cycles). It feels so good to think that you won't have to worry about maintenance or light bulb replacement while having the perfect light ambience in your home.

Maximum brightness

This Philips desk lamp is designed specifically for desk-based activities like doing homework or browsing the news on the laptop. When you switch it on it immediately provides just the right brightness for maximum comfort.

On/off switch on article

With the button discreetly integrated into the lamp, you can easily switch the light on and off.

Perfect for task lighting

This Philips desk lamp casts bundled light that provides even illumination of the working area.

Specifications
