Highlights

All-in-One Simplicity

The lightweight comfortable all-in-one design is easy to move around vs. wired VR headsets and offers excellent performance vs. phone based VR headsets. Carefully designed with lightweight and breathable materials it is much more comfortable to wear.

Adjustable focal length

Some are near-sighted and far-sighted, the Philips VR headset offers an adjustable lens focal length to accommodate your vision.

Wide Field of View

A wider field-of-view means you see more. More Clarity and more immersive experiences.

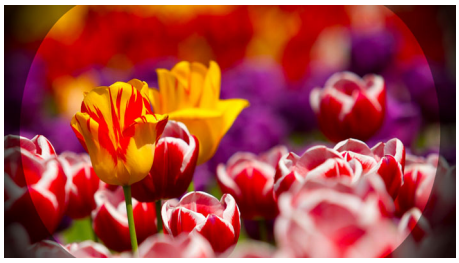
Intuitive touchpad

The intuitively-designed and highly sensitive touchpad offers another input to control your VR experience.

Powerful hardware support

Great VR content is only as good as your VR headset hardware will support. The carefully chosen graphics processor is sure to support your experience.

Huge HD AMOLED Display



A high-end screen is crucial to for an excellent VR experience, ultra-high resolution AMOLED screen provides colorful and crisp visuals with quick refresh rates for a more comfortable experience. The larger screen provides a more immersive experience vs typical phone-based VR headsets.

Rich content with Whaley

With a Whaley enabled VR headset you get hours of access to rich content.

Exclusive live shows

In addition to the hours of access to Whaley content with Whaley enabled VR headsets you also get access to exclusive live shows and events in VR with Whaley.

Interactive companion

Enjoy the company of a fun and interactive virtual companion to watch movies with.
